

Amendments to the Specification:

Please replace the paragraph beginning on page 9, line 18 of the specification with the following redlined paragraph:

The transmitter 30 as shown in Fig. 4 comprises an input stage 31 for generating the input signal A for the modulator system 1, and comprises for example a digital-to-analog-converter 32 for converting the output signal F into a ~~digital~~an analog signal, and comprises for example a power amplifier 33 for amplifying the ~~digitized~~analog output signal.
